

SCC Central Campus, Spartanburg, S.C.

Spartanburg Community College will hold information sessions on **Gateway to College** and **L.I.N.K** -- two programs for youth (16-20 years old) who have dropped out or are at risk of dropping out of high school.

These programs allow students to earn a high school diploma and college credit -- including an associate degree, diploma or certificate -- through SCC. Courses are taught by college faculty on SCC's central campus in Spartanburg or the Tyger River Campus in Duncan. Students also receive comprehensive and individualized support services, including academic and career advising. Each program has unique eligibility requirements. Students must meet these requirements and live in a participating school district. For additional information, call (864) 592-4623.

Parents, family, friends and students interested in learning more about these programs are invited to attend these free sessions

Gateway to College Information Session

East Building, Room 25

1pm

Monday, July 27

L.I.N.K. Information Session

East Building, Room 25

1pm

Tuesday, July 28

Thank you!
